

When we arrived Sunday in Vienna we went to visit the castle of Sisi the empress.

There were many galleries and the garden was very big and beautiful. We can see a museum Mumak which is the largest museum of modern art in Europe.

Then the evening we went to the boarding school we were welcomed warmly. Monday we woke up to go to lunch and we went to visit the park which is natural park, there are tortoise and a lake where we could walk under the lake to see the fish.

We went to see a beekeeper Mister Ben who made us taste honey and see hives.

Tuesday, we presented our posters on bees. It's a little stressful

because we spoke in front of everyone with microphone.

We played a match of football and the afternoon we visited Vienna with a guide where we visited the church of the royal winter palace.

Wednesday, we went to natural museum of Austria where there are insect, small animals and a fake fish which is the biggest fish of Austria

We climbed at the top of a tower to see the big city of Vienna.

At noon we ate in a restaurant and in the afternoon we went up a mountain to walk where there is the castle of Durstein (which was destroyed), we took a lot of pictures. Greta's dad made us visit his vineyard then we ate at his home. Thursday we visited school of Austria, at this school every teacher has their office desk and students have a lot of machines to make apple juice or wine for example.

Then we saw the orchard of the school which is twenty eight hectare but only eighteen are farmed. We tasted two apples of two different species which don't have chemical products and are very good.

After that we walked back to high school. We stayed ahead of other groups so we could go to a food store. We went to the barbecue and after eating we played games with the different countries (pull rope, bout throwing...) the night we said good bye to other countries because the next day we left very early. A taxi to picked us up to drop us at the train station. We took a train to Lyon then we took a coach which took us back at the school. The journey was very long (one day) but it's very funny because we were playing card games.
